

CONTENTS

NAGASAWA, T. : On the global existence of generalized rotational hypersurfaces with prescribed mean curvature in Euclidean spaces, II	1
 Proceedings of the Sixth Japanese-Australian Workshop on Real and Complex Singularities	
CAMPESATO, J-B. : From the blow-analytic equivalence to the arc- analytic equivalence : a survey	35
FUKUI, T. : Local differential geometry of singular curves with finite multiplicities	79
ISAEV, A. : On the image of the associated form morphism	89
KOBAYASHI, M. : On blow-analytic equivalence of plane curves	103
NABESHIMA, K. and TAJIMA, S. : Comprehensive Gröbner systems approach to b-functions of μ -constant deformations	115
OKUMA, T. : A remark on metrically conical surface singularities of Brieskorn type	137
SASAJIMA, T. and OHMOTO, T. : Classical formulae on projective surfaces and 3-folds with ordinary singularities, revisited	141
SEKIGUCHI, J. : The discriminant of Valentiner reflection group and deformations of a plane curve	161
SUZUKI, M. : Classification of quasihomogeneous polynomials of corank three with inner modality ≤ 14	171
