0	Not Applicable	No Value
8.18	Mean	
9.00	Median	
0.94	Std Dev	

Please comment on the following areas and be as specific as possible.

9. What are the TA's strengths?

- Getting students to participate. Good examples.
- good examples. those examples are very helpful.
- He is the best discussion TA I have ever had! He makes such difficult concepts so easy to understand. I honestly think he would be an amazing professor. He's really patient with us and takes the time to explain things thoroughly.
- He knows what he's doing and explains the concepts pretty clearly.
- Making simple explanations and going over problems similar to the quizzes.
- Really wants to help the students and is honest.
- understands material
- Yuki is fantastic at explaining concepts. Anytime there is a topic I'm not too clear on, he usually clears up any confusion during discussion. He also writes very neatly with large letters, which makes it easy to see whatever is on the board from even the back of the room.
- 3 blank answer(s).

10. How can this TA improve?

- Perhaps don't assume that people get it just because they don't say anything.
- Slow down at explaining certain topics.

UCI EEE Evaluations

Summer Session TA Evaluation for Takahashi, Yuki MATH 2B DIS F1 (44151), Summer II 2014

- Talk a little more clear.
- This isn't something that can be easily improved, but Yuki does have a strong accent that can get hard to understand. But because he works out problems with us step by step, we can visually understand what he is saying.
- 7 blank answer(s).

11. Any other comments about this TA?

- Do not have to repeatedly say sorry for how there is a time crunch and do not need to be panicky.
- His accent can be a little hard to understand but otherwise he is great!
- Super helpful and really tried to use all of the time.
- Yuki is very helpful and I feel that I walk out of his discussions feeling like I really learned something.
- 7 blank answer(s).
