Please comment on the following areas and be as specific as possible.

9. What are the TA's strengths?

- .
- Answer the questions from webwork being patient
- he encourages us to practice and study daily. he explains things easily when they are not clear
- He is very friendly and helpful and makes learning math more bearable
- He shows different ways of approaching a problem and easy to understand.
- The TA is really able to explore and explain great amount of information in small amount of time better than the professor.
- Yuki is very well versed in calculus. His knowledge, coupled with his friendly and outgoing demeanor makes it very easy to approach him for help when needed.
- Yuki understands that not all of his students are math majors, by knowing this he creates a very easy learning module for each section so all of his students to understand the topic.

10. How can this TA improve?

- .
- Although he has a thick accent I was still able to understand him, however he did talk very fast sometimes.
- At times Yuki can be a little hard to understand do to his thick accent. I'm sure his English will improve with practice.
